

PGD/PGS Flare Cycle

IMPORTANT

-  Daily FSH injection
-  Trigger injection
-  Ultrasound scan
-  Agonist Medication

This is a visual tool only. Dates of medication will vary depending on the individual
You **MUST ABSTAIN from unprotected intercourse** for the duration of your PGD/PGS cycle from Day 1

There are four potential outcomes of the scan:

- ◆ Poor response
- ◆ Over response
- ◆ Not ready for trigger
- ◆ Ready for trigger

NOTES
